E-Mail: sneha.bagchi@tatasteel.com

SPECIAL NOTE :

"TMILL is the clearing agent & Inland transportation agent for transporting material from Port/Airport to Tata Steel Plants."

1. The invoice should be properly signed & stamped in case of a manual invoice.
2. If it is computer generated invoice, then inv should be mention that it is computer generated & requires no signature.

Packaging Standard:-

1. Material in loose, gunny bag, jute bags etc are not allowed to supply.
2. For material weighing less than 20 KG and having total no. of packets less than 25, carton box packing to be done. If no. of packets is more than 25, pallet packaging to be done ensuring mechanised handling. Dimension of pallet should not exceed 1M X 1M X 1M. Wooden pallets to be used for material weighing less than 20 KG weight with more than 25 packets.
3. Material weighing more than 20 KG, palletized box packing is required, which will ensure mechanised handling. Metallic pallets (ideally IS 2062:1999-GR:A.) or recyclable polypropylene pallets (ideally LLDPE+STEEL REINFORCEMENT+PU) to be used for material weighing more than 20 KG pallets.
4. Suitability for stacking:  
Loading units must be put together so that they can be handled, transported, stacked, and stored as a unit. If loading units are made up of smaller containers/ boxes, then they must be organised properly to match and properly fit into pallets# standard dimensions. More than two different materials should not be packed together.  
If two different materials are packed together, care should be taken that they should not get mixed. They may be placed next to one another, separated by intermediate layers (never on top of one another) to form a loading unit. Care must be taken that similar items are packed in the same loading unit, to avoid mistakes.
5. Securing Loads:  
Packaging should always be selected so that it can be properly secured and remain stable during transportation/shifting. Goods can be secured using shrink covers, strapping and stretch film.  
Edge protection strips must be used to prevent strapping from cutting into the cardboard. Pallet collars must be used to prevent stacked loads from slipping. The sender is responsible for ensuring the flawless technical state of the pallet collars.  
When removing only part of a loading unit, it must be ensured that the remaining items are stable. To ensure that handling is possible using floor-level conveyors and automatic conveying equipment, there must be

enough clearance between the pallet#s runners.

6. Pipe Packaging:

The pipe bundle diameter should not exceed 0.8 Mtr (max.). Try to give a hexagonal shape of pipe bundle. Bundles should be properly strapped minimum 4 places; overall weight of bundle should not exceed more than 1 MT. Strapping load bearing capacity should be min 2 MT. Wooden dunnage to be provided at min 3 places at floor of truck/trailer for stable movement and mechanised loading /unloading.

All consignments should come in trailers with correct dunnage. No

#Punjab Dala# and truck is allowed inside the TSL works.

7. Levelling & Marking:

a. UMC # with description, Qty with UoM & Part # (if applicable), Use best before date (if applicable) to be marked on each individual items.

b. UMC#, Part#, Qty with UoM on Box.

c. Vendor Detail (Code & Name)

d. PO# and Date

e. ECCI # and Date

f. Test Certificate & MSDS if applicable

g. RFID (Wherever possible) of material no.

h. Special handling precaution if applicable

Warranty/Guarantee period:

1. Unless indicated otherwise, warranty/guarantee period shall be twelve (12) months from the date of commissioning/use or eighteen (18) months from the date of receipt of Goods, whichever is earlier. However, for any "Generic defects" i.e. any defect that is not discoverable by reasonable or customary inspection arising out of a defect in design, materials, workmanship, or other reasons Supplier will be responsible even after warranty/guarantee period.

2. During the warranty/guarantee period, the Supplier shall, at his own expense, upon written demand by the Purchaser, promptly repair or replace the defective Goods or any part(s) thereof at the plant site, free of cost:

i. Which may not comply with Technical Specifications and the representations and warranties set forth in this General Conditions of Contract, or

ii. Which may be of defective or incorrect design, or

iii. Which under normal and proper use and maintenance proves defective in workmanship or materials or deficient in performance, subject to normal wear and tear.

"Clause: Supplier Responsibility for Stuffing, Lashing, Choking and Related Damage (FOB Shipments)

1. Supplier#s Responsibility.

For all shipments on FOB terms, the Supplier shall be solely responsible for the proper packing, choking, lashing, bracing, blocking, and stuffing of cargo into containers or onto conveyances, in accordance with industry best practices, relevant carrier/port requirements, and all applicable laws and regulations.

2. Quality & Compliance.

The Supplier shall ensure the use of suitable materials and methods so that the cargo is safe and secure for road, rail, and port handling, ocean carriage, and onward movement, and does not cause damage to the container, equipment, vessel, terminal, or other property.

3. Liability for Damage and Claims.

The Supplier shall be liable for and shall bear all loss, damage, penalties, and costs (including third party claims) arising from or related to inadequate or improper packing, choking, lashing, bracing, blocking, or stuffing, including damage to cargo, container/equipment, infrastructure, and any consequential costs (e.g., survey fees, detention/demurrage, cleaning/repair, disposal, handling, administrative and legal costs).

4. Indemnity.

The Supplier shall defend, indemnify, and hold harmless Tata Steel (including its affiliates, directors, officers, employees, agents, and insurers) against any claims, losses, damages, liabilities, fines, and

Clause with respect to Anti-bribery in contracts/POs

A.(The Service Provider/Vendor) acknowledges and agrees that it has not and will not, make or promise to make corrupt payments of money or anything of value, directly or indirectly, to any government or public international organization officials, political parties, or candidates for public office, or employee of a commercial customer or supplier, for the purpose of obtaining or retaining business or securing any improper advantage.(The Service Provider/Vendor) also agrees that it shall not engage in any activity that would expose TSL to a risk of penalties under the laws and regulations of any relevant jurisdiction, like the Prevention of Corruption Act 1988 and Prevention of Corruption(Amendment) Act 2018 or any applicable local laws, prohibiting improper payments, including but not limited to bribes to officials of any government or private agency.

B.(The Service Provider/Vendor) hereby represents that it has not and shall not itself or through any of its personnel or any other entity, by whatever name called, give or will give or promise to give any money or gift to any employee/official of TSL to influence their decision regarding this Agreement, nor shall it exert or utilize any unlawful influence through a promise to pay a commission, percentage, brokerage or contingent fee to secure or solicit any extension hereof.

C.(The Service Provider/Vendor) agrees that breach of this clause shall be sufficient ground for TSL to terminate this Agreement immediately without prejudice to the (The Service Provider/Vendor) liability under applicable laws. Further, breach of this clause shall also be sufficient ground for TSL to withhold any and all payments, which may be due to the(The Service Provider/Vendor) and for TSL to initiate appropriate legal actions against the (The Service Provider/Vendor).
